# 14-week Full-Stack Bootcamp Curriculum

This repository will eventually contain all the modules for Tech Elevator's 14-week, full-stack web development bootcamp curriculum.

Inside each module, a folder for each day of the module will be created. Inside that day, you'll find the following folder structure:

- lecture: Any code or documentation needed for the student to go through the lecture
- lecture-final: The final lecture code created during class
- tutorial: Any code or documentation needed for the student to follow along with the tutorial
- tutorial-final: The final solution for the tutorial
- exercise: The starting code and documentation for the student exercises

### Module 1: Intro to Programming

Module 1 covers an introduction to either Java or C#, depending on the language track of the class. Included in the material are Datatypes, Expressions and Statements, Object-Oriented Programming Principles, Exception Handling, File I/O, and Unit Testing.

### Module 2: Database Programming

The first two weeks of this module introduce SQL as a query language and then leverage C# and Java to issue SQL commands against databases.

The third and fourth weeks cover writing client-server applications using Web Services. This includes both implementing web service clients using either Java or C# and writing server-side code that implements a RESTful web service API.

## Module 3: Web Applications

Module 3 covers an introduction to front-end web application development using HTML, CSS, and JavaScript. This includes the fundamentals of JavaScript and a framework called Vue.js that students can use to build applications.

### 14-Week Syllabus

The table below lists the Topics for each day as well as the Sections and Units to be completed before each day's lecture **including quizzes and tutorials if present**:

			Topic	Section - Unit(s)
Module	Week 1			Intro to Tools - Student guide
1	September			Intro to Tools - How do I?
	12	Day 1	Introduction to Tools	Intro to Tools - File system and
				command line
				Intro to Tools - Git

Day 3   Logical branching   Intro to Programming in Java - Logical branching		Day 2	Variables and data types	Intro to Tools - Java Intro to Tools - IntelliJ Intro to Programming in Java - Variables and data types
Day 4 Loops and arrays  Intro to Programming in Java - Command-line programs  Intro to Programming in Java - Intro to Objects  Day 2 Collections Part 1 Intro to Programming in Java - Collections (Part 1)  Day 3 Collections Part 2 Intro to Programming in Java - Collections (Part 2)  Day 4 Classes and encapsulation  Day 5 Review  Day 1 Inheritance Intro to Programming in Java - Inheritance  Day 2 Polymorphism Intro to Programming in Java - Inheritance  Day 3 Managing inheritance Intro to Programming in Java - Polymorphism  Day 4 Unit testing Intro to Programming in Java - Unit testing  Day 5 Review  Pay 1 Exception handling & File I/O Reading Intro to Programming in Java - Exception handling Intro to Programming in Java - File I/O reading Intro to Programming in Java - File I/O reading Intro to Programming in Java - File I/O reading Intro to Programming in Java - File I/O reading Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 3	Logical branching	
Day 1 Intro to Objects (Strings) Intro to Programming in Java - Intro to objects  Day 2 Collections Part 1 Intro to Programming in Java - Collections (Part 1)  Day 3 Collections Part 2 Intro to Programming in Java - Collections (Part 2)  Day 4 Classes and encapsulation  Day 5 Review  Day 1 Inheritance Intro to Programming in Java - Classes and encapsulation  Day 2 Polymorphism Intro to Programming in Java - Inheritance  Day 3 Managing inheritance Intro to Programming in Java - Polymorphism  Day 4 Unit testing Intro to Programming in Java - Managing inheritance  Day 4 Unit testing Intro to Programming in Java - Unit testing  Day 5 Review  Intro to Programming in Java - Managing inheritance  Intro to Programming in Java - Unit testing  Day 6 Review  Intro to Programming in Java - Exception handling & File I/O Reading Intro to Programming in Java - File I/O reading  Week 4 October 3 Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 4	Loops and arrays	<u> </u>
Day 2   Collections Part 1   Intro to Objects (Strings)   Intro to objects		Day 5	Command-Line programs	<u> </u>
Week 2 September 19 Day 3 Collections Part 2 Intro to Programming in Java - Collections (Part 2)  Day 4 Classes and encapsulation Day 5 Review  Day 1 Inheritance Intro to Programming in Java - Classes and encapsulation  Day 2 Polymorphism Intro to Programming in Java - Polymorphism  Day 3 Managing inheritance Intro to Programming in Java - Polymorphism  Day 4 Unit testing Intro to Programming in Java - Managing inheritance  Day 5 Review  Day 6 Review  Day 7 Exception handling & File I/O Reading  Day 8 File I/O Writing  Day 9 File I/O Writing  Day 1 Review  Day 1 Capstone Day 1  Day 3 Review  Day 4 Capstone Day 1		Day 1	Intro to Objects (Strings)	<u> </u>
Day 3 Collections Part 2 Collections (Part 2)  Day 4 Classes and encapsulation  Day 5 Review    Day 1	Week 2	Day 2	Collections Part 1	
Day 4 Classes and encapsulation  Day 5 Review    Day 1	· ·	Day 3	Collections Part 2	<u> </u>
Week 3 September 26  Day 2 Polymorphism Intro to Programming in Java - Polymorphism  Day 3 Managing inheritance Intro to Programming in Java - Managing inheritance  Day 4 Unit testing Intro to Programming in Java - Managing inheritance  Day 5 Review  Intro to Programming in Java - Unit testing  Intro to Programming in Java - Unit testing  Intro to Programming in Java - Exception handling & File I/O Reading  Intro to Programming in Java - Exception handling Intro to Programming in Java - File I/O reading  Week 4 October 3  Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 4	Classes and encapsulation	<u> </u>
Week 3 September 26  Day 2 Polymorphism Intro to Programming in Java - Polymorphism  Day 3 Managing inheritance Intro to Programming in Java - Managing inheritance  Day 4 Unit testing Intro to Programming in Java - Unit testing  Day 5 Review  Intro to Programming in Java - Unit testing Intro to Programming in Java - Exception handling & File I/O Reading Intro to Programming in Java - File I/O reading  Week 4 October 3  Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 5	Review	
Week 3 September 26  Day 3 Managing inheritance Intro to Programming in Java - Managing inheritance  Day 4 Unit testing Intro to Programming in Java - Unit testing  Day 5 Review  Intro to Programming in Java - Unit testing  Intro to Programming in Java - Exception handling & File I/O Reading Intro to Programming in Java - Exception handling Intro to Programming in Java - File I/O reading  Week 4 October 3  Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 1	Inheritance	
Day 3   Managing inheritance   Intro to Programming in Java - Managing inheritance	Week 3	Day 2	Polymorphism	<u> </u>
Day 4 Unit testing  Day 5 Review    Day 1   Exception handling & File   I/O Reading   Intro to Programming in Java - Exception handling   Intro to Programming in Java - File I/O reading   Intro to Programming in Java - File I/O reading	September	Day 3	Managing inheritance	5 5
Day 1 Exception handling & File Exception handling Intro to Programming in Java - Exception handling Intro to Programming in Java - File I/O reading  Week 4 October 3 Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 4	Unit testing	
Day 1 Exception handling & File I/O Reading Intro to Programming in Java - File I/O reading  Week 4 October 3 Day 2 File I/O Writing Intro to Programming in Java - File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 5	Review	
October 3  Day 2 File I/O Writing  File I/O writing  Day 3 Review  Day 4 Capstone Day 1		Day 1	,	Exception handling Intro to Programming in Java -
Day 4 Capstone Day 1		Day 2	File I/O Writing	
		Day 3	Review	
Day 5 Capstone Day 2		Day 4	Capstone Day 1	
		Day 5	Capstone Day 2	

Module 2	Week 5 October 10	Day 1	Intro to databases	Intro to Tools - PostgreSQL Client-Server Programming in Java - Intro to databases	
		Day 2	Ordering, limiting and grouping	Client-Server Programming in Java - Ordering, limiting, and grouping	
		Day 3	SQL Joins	Client-Server Programming in Java - SQL joins	_
		Day 4	Insert, update, and delete	Client-Server Programming in Java - Insert, update, and delete	_
		Day 5	Tech Elevator Company Holiday - Campus Closed		_
		Day 1	Database design	Client-Server Programming in Java - Database design	_
	Week 6	Day 2	Data access and DAO	Client-Server Programming in Java - Data access and DAO	_
	October 17	Day 3	Data security	Client-Server Programming in Java - Data security	_
		Day 4	DAO testing	Client-Server Programming in Java - DAO testing	_
	-	Day 5	Review		
	Week 7 October 24	Day 1	Networking and HTTP & Consuming RESTful APIs (Part 1)	Intro to Tools - NPM Intro to Tools - Postman Client-Server Programming in Java - Networking and HTTP Client-Server Programming in Java - Consuming RESTful APIs (Part 1)	
		Day 2	Consuming APIs (Part 2)	Client-Server Programming in Java - Consuming RESTful APIs (Part 2)	_
		Day 3	Server Side APIs (Part 1)	Client-Server Programming in Java - Server-side APIs (Part 1)	
		Day 4	Server Side APIs (Part 2)	Client-Server Programming in Java - Server-side APIs (Part 2)	
		Day 5	Securing APIs	Client-Server Programming in Java - Securing APIs	Day 5
	Week 8	Day 1	Review		_
	October				

	31	Day 2	Review	
		Day 3	Capstone	
		Day 4	Capstone	
		Day 5	Capstone	
Module 3		Day 1	Intro to HTML and CSS	Intro to Tools - NPM (revisit) Intro to Tools - Visual Studio Code Intro to Tools - Cypress Web Application Development - Intro to HTML and CSS
	Week 9 November 7	Day 2	CSS Selectors & and box model	Web Application Development - CSS selectors and box model
	·	Day 3	CSS Grid	Web Application Development - CSS Grid
		Day 4	CSS Flexbox	Web Application Development - CSS Flexbox
		Day 5	Review	
		Day 1	Intro to JavaScript	Web Application Development - Intro to JavaScript
	Week 10	Day 2	JavaScript functions	Web Application Development - JavaScript functions
	November 14	Day 3	DOM	Web Application Development - DOM
		Day 4	Event handling	Web Application Development - Event handling
		Day 5	Review	
		Day 1	Intro to Vue.js	Intro to Tools - Vue Web Application Development - Intro to Vue.js
	Week 11	Day 2	Vue event handling	Web Application Development - Vue event handling
	November 21	Day 3	Vue component communication	Web Application Development - Vue component communication
		Day 4	Thanksgiving - Campus Closed	
		Day 5	Thanksgiving - Campus Closed	

Week 12 November		Vue Router	Web Application Development - Vue Router	
	28	Day 2	Employer Matchmaking - No lecture	
		Day 3	Web Services (GET)	Web Application Development - Web services (GET)
		Day 4	Web Services (POST) and error handling	Web Application Development - Web services (POST) and error handling
		Day 5	Review	
Final Capstone	Week 13 - 14 December 5	Day 1	Employer Matchmaking	•
